PBIS

POSITIVE BEHAVIOR INTERVENTION AND SUPPORT

Classes for Twos

Two year old students have the option of attending two, three, or five days per week. Children are nurtured as they are introduced to the concept of being without their parents. A gathering time, free play, project, snack and outside play time fill up the three hours. Curriculum is centered around early literacy concepts of colors, shapes and word play, and counting.

Classes for Threes

Three year old students have the option of attending two, three, or five days per week. Three year olds "work" on letter recognition and beginning number skills. Again these concepts are casually introduced through discovery, play, stories, nursery rhymes and literature.

Pre-Kindergarten

Pre-Kindergarten classes are designed to provide children classroom experiences through play and hands on learning activities that enhance growth in the areas of social-emotional and cognitive development. Using "Big Day for Pre-K" , a literature-based curriculum, enriches the learning as well. Our pre-kindergarten students have the choice of attending 3 or 5 half days (9:00 to 12 noon) and an option for Extended day (Wonder Kids) available Tuesdays, Wednesdays and Thursdays from 12 noon to 2:30pm. PreK Wonder Kids Program have lunch together, a recess period and then resume class time. Wonder Kids Program will provide children themed, center-based activities throughout the year that will further develop their classroom skills.
